Fletcher Math

Classroom games your whole school can use

271 downloadable games for math, reading/ELA and science, grades K–12. Made by Justin Fletcher, a middle school math teacher in Oklahoma.

How teachers use them

- Whole-class review on the smartboard, or students on their own Chromebooks
- Warm-ups, test review, centers, early finishers and sub plans
- No student logins and no accounts; the games run offline once downloaded
- Works on smartboards, Chromebooks, laptops and iPads

What students practice

- Each game page lists the standards it covers (Common Core and Oklahoma OAS)
- Review games for every math grade from K to Precalculus cover every standard for the grade
- Review results show the percent correct for each standard, so teachers know what to reteach
- Every game has a free demo at fletchersmath.com

Licenses (one-time purchase, no subscription)

License	Who can use it	Price
Teacher License	One teacher and all of their own students	$150 one time
School License	Every teacher in one school	$499 one time
District License	Every school in one district	$1,499 one time

Every license includes every current game plus every new game at no extra cost, and one month of the optional Premium online arcade free.

Paying with a purchase order: request a numbered quote at fletchersmath.com/schools/ (valid 60 days), email the PO with the quote number to support@fletchersmath.com, and the download link is sent once the PO arrives. Net 30 invoice, payable by ACH, card or check. W-9 and vendor forms on request. Vendor: Fletcher Math (Justin Fletcher).
